SITUATION SUMMARY

Train Derailment, Oakland, Alameda County – Hazardous Material Spill Report # 15-4795

On 08/17/15 at 1104 hours, Union Pacific Railroad (UPRR) advised one railcar derailed upright at Embarcadero Street and Martin Luther King Jr. Way in Oakland, Alameda County, due to unknown causes. The railcar was carrying scrap metal. There were no injuries, no hazardous material releases, and no mainline closures associated with this incident. Notifications were made per CSWC SOP.

City of Canyon Lake Resolution Continuation

A Resolution from the City of Canyon Lake has been received reviewing the continuing existence of a local fire emergency. The City has established their own fire department, however, continues to receive assistance from outside jurisdictions.

4.0 Magnitude Earthquake, Alameda County (Final)

On 08/17/15 at 0649 hours, an [verified](#) 4.0 magnitude earthquake occurred 1 mile north of Piedmont, Alameda County.

- Per Alameda, San Francisco, and San Mateo County Warning Points, the quake was felt but there are no reports of any damage or injuries.

Per Cal OES Earthquake and Tsunami Program (EQTSU) Duty Officer:

- The earthquake occurred at a depth of 3.3 kilometers.
- Weak to light shaking was felt north to Santa Rosa, east to Brentwood, south to Santa Cruz and west to San Francisco.
- The main event was followed by six aftershocks in the M1.3 to M2.4 range.
- According John Parrish, California State Geologist, this event is not out of the ordinary for the Hayward Fault and was not unexpected. Large earthquakes occur on the Hayward Fault on a wide average of about every 140 years. The last large earthquake occurred on the Hayward fault in 1868.
- The Cal OES EQTSU Duty Officer will continue to monitor seismic activity in the region and provide updates as needed.

SOC Activation for California Wildfires

- The State Operations Center (SOC) is activated at Level 2 from 0600-2000 hours due to the wildfires burning throughout California.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

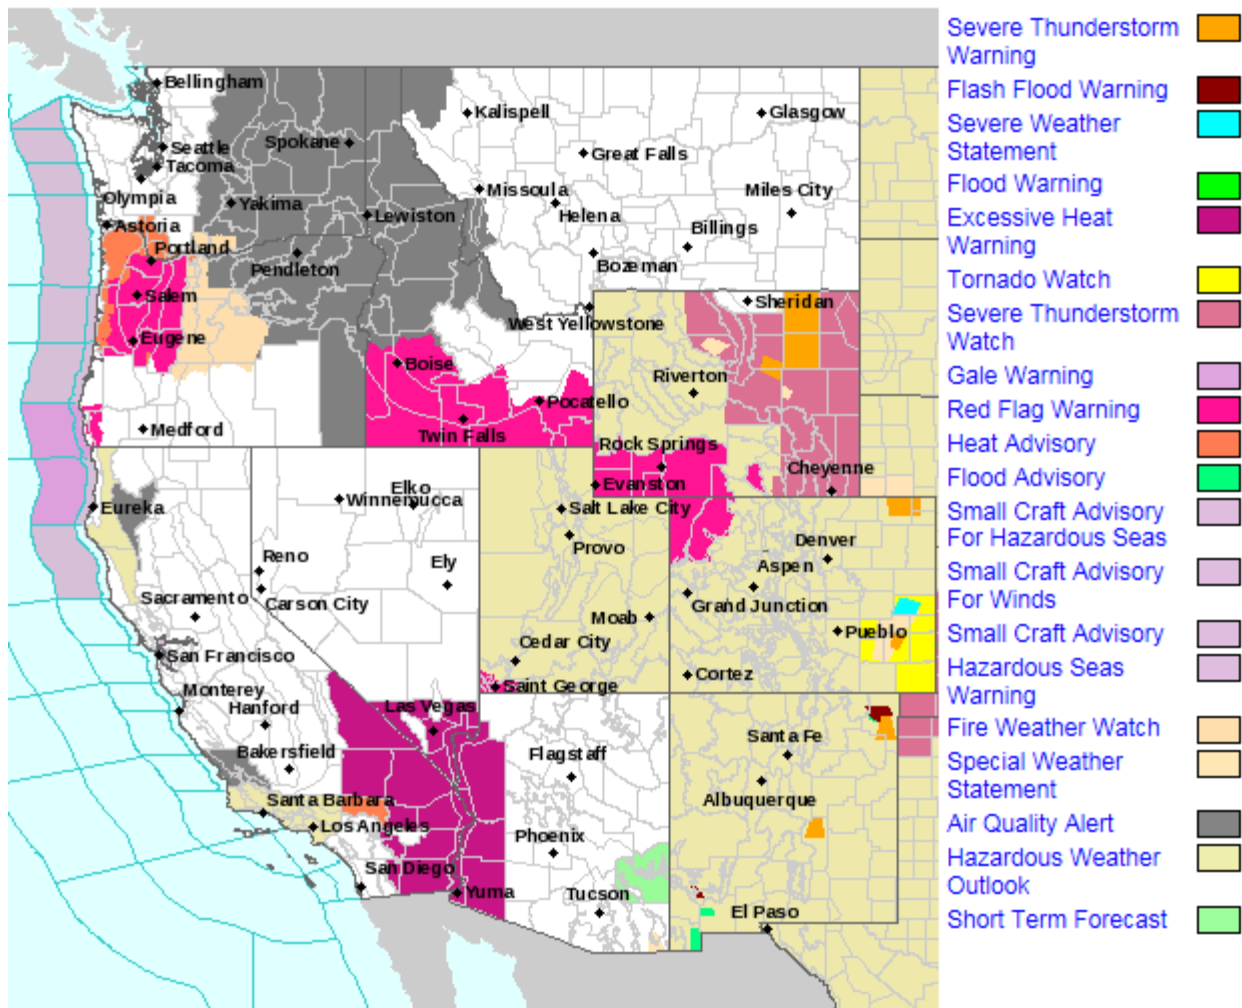

High pressure will continue the warming and drying trend in Northern California through Tuesday. During this time a light northeast to east down-slope surface wind pattern will occur during nights and mornings and enhance the warm and dry conditions from the western Sierra slopes to the coast. These winds will die off in most areas during the afternoons and a light sea breeze will bring cool humid air back to areas along the immediate coast. Afternoon temperatures will continue to be 5-10 degrees above normal and inland relative humidity will drop to the single digits. Poor overnight relative humidity recovery will be common. On Wednesday, a weak low pressure trough will begin dropping in from the north. It will remain over Northern California through Friday. This pattern will bring slightly cooler and more humid conditions to the region and overnight relative humidity recovery will improve. Coastal areas will have a deeper marine layer with stronger afternoon sea breeze winds. High pressure will return next weekend with more hot and dry weather. Smoke from active fires in northwest California will tend to drift to the south through Tuesday which means the Sacramento area, Bay area and San Joaquin Valley will be impacted. The incoming trough will spread smoke more to the east and southeast beginning Wednesday which will lessen the impact in the Bay area and San Joaquin Valley but may still affect the Sacramento area.

SOUTHERN CALIFORNIA

Strong high pressure centered over Southern California will weaken causing temperatures to slowly cool through the end of this week. Temperatures will be near normal Thursday and Friday as a trough moves inland across the Pacific Northwest. Westerly winds of 15 to 25 mph with gusts to 40 mph will surface across the Tehachapi Mountains, Antelope Valley, and Banning Pass through Friday evening. Another strong area of high pressure will form over the southwestern states bringing a warming trend to the area this weekend. Minimum relative humidity will be mainly in the teens above and inland from the marine layer through this weekend. The marine layer will slowly deepen through the end of this week with morning low clouds and fog spreading into most coastal valley locations by Friday morning.

SITUATION SUMMARY

FIRES, SOUTHERN OPERATIONS AREA

Lincoln Fire, Vegetation Fire, Los Angeles County

Location: Whittier Narrows, Montebello, Los Angeles County

Jurisdiction: LRA

Start Time: 8/16/15 at 1700 hours

Per Cal OES Duty Officers as of 8/17/15 at 0930 hours

- 370 acres, 80% contained as of approximately 1600 hours on 08/17/15, per LA County Fire PIO.
- There are currently no threats to structures and/or infrastructures
- There is no forward progress - the flanks are being worked to attain full containment
- As with any urban area fire, spectators are an issue and fire apparatus are having trouble moving and maintaining scene safety
- State Route 60 was closed originally at San Gabriel Blvd by the LA County Sheriff, but per Cal Trans, the road and connectors are now open.
- Evacuations/Shelters:
 - All evacuations have been cancelled.
 - The request for an American Red Cross Shelter was also cancelled.
- Major Concerns: There are production oil pipelines in the area of the fire.
- State Fire Marshall (SFM) reports that the single pipeline under their jurisdiction is the Crimson Pipeline, and they are in contact with the Crimson Operations Manager at this time. SFM also reports that the fire is moving away from the pipelines to the northeast.
- Per SFM, Crimson stated that they do not have any tanks in the area. They receive crude oil from a production lease and ship it through a 6-8-inch gathering line (CSFM Line ID 0827). This line appears to be southeast of the fire but Crimson is sending a representative to the Lincoln Fire to inform the FD on scene.
- Additional production oil lines are in the area and the Department of Oil and Gas (DOG) reports that the main production oil field and production pipelines are owned by Freeport McMoran Oil and Gas, who they will be in contact with today.
- Per the LA County OEM duty officer: Southern California Edison (SCE) reported that 66kV and 16kV lines have been damaged.
 - The California Utilities Emergency Association (CUEA) is in contact with SCE who reports that they are doing a work around to the damaged 66kV power line and there is no impact to the Grid.
- The fire caused SCE and privately owned oil drilling company downed power lines. About 60-160 residents are still experiencing power outages. SCE reported crews are in the area working on repairing the downed power lines and restoring power to the impacted residents.
- There are no requests for assistance or unmet needs at this time.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>

- **2015-LAW-14555 08/03/15, 0800 hours, Update 8/12/15:** Several of the fires within the complexes have been merged, with one fire, the Pelletreau (South Complex Fire), being moved into the Route Fire Complex and merged into the Johnson Fire. Windy conditions and overstretched fire resources has necessitated LE to assist with dynamic road closures lasting up to an hour or so. Trinity County Sheriffs Office is in the process of coordinating with the 5 Fire Complex Security Managers to capture thefts of fire equipment and fuel. Currently thefts of Diesel (approx. 200 gallons), New Batteries, New Fire Engine Tires (4) and a Water pump have been reported. The water pump was one of 42 that were ordered for the fire, Fire was only able to secure 17 of these pumps so the loss of this pump has exacerbated this situation. **Update 8/14/15:** Significant increase in fire activity, no new LE issues. **Update 8/15/15:** No new significant information or changes in operational needs to report. **Update 8/16/15:** No new significant information or changes in operational needs to report. **Update 8/17/15:** No new significant information or changes in operational needs to report.
